

KURAGE Vision

Real-time AI video analytics for security & UAV cameras

Pricing: From \$300 / month (subscription)

An AI-powered video analytics platform that turns security camera and UAV camera footage into real-time object detection, incident alerts, and evidence snapshots. Deployed across security patrol, infrastructure inspection, disaster response, and public safety use cases.

■ Key Features

- ✓ Object detection (people, vehicles, weapons, suspicious items)
- ✓ Real-time alert notifications
- ✓ Automatic evidence snapshot capture
- ✓ License plate OCR recognition
- ✓ Watchlist matching (people & vehicles)
- ✓ Works with existing security or UAV cameras

■ Ideal Use Cases

- ✓ Facility & site security patrol
- ✓ Infrastructure inspection
- ✓ Disaster response & public safety
